A man in FXR motocross gear is sitting on the back of a white truck. He is wearing a black long-sleeved shirt with 'FXR' and 'RACE' printed on it, and black pants with 'FXR' and 'RACE' printed on them. He is smiling and looking to the right. In the foreground, a dirt bike is partially visible, with 'Husqvarna' and 'FXR' branding on the front fender. The background shows a dirt track and trees.

FXR

FXR MX GEAR

2021 MOTO

FXR's Collection was developed to meet the demands of our Pro Factory Racers. Clean, bold style meets industry leading performance, fit and durability. To accomplish the goal, FXR engineered these pieces using highly durable bonded Omni-Stretch™ material, and aggressively pre-curved fit patterns, to give our racers unparalleled fit and performance to deliver an unrestricted experience that allows you to focus on your riding.

The FXR logo is positioned in the top left corner of the page. It consists of the letters 'FXR' in a bold, white, sans-serif font. The background of the entire page is a high-action photograph of a motocross rider in mid-turn, with a large cloud of dirt kicked up behind them. The rider is wearing a white helmet with red and black graphics, a black and orange jersey with 'FXR' written on it, and a red and white number plate with the number '51'. The image is split diagonally from the top left to the bottom right, with the rider on the left and the dirt cloud on the right.

Whether you're a racer looking for the ultimate in crash protection, a backcountry rider looking for lightweight and maximum venting, or a trail/touring rider looking for a comfortable/quiet helmet that remains fog-free, FXR® has you covered with our comprehensive line of helmets that sets the standard in safety, style, features, innovation, fit, performance, and visibility.

6D ATR 2 ODS

OMNI-DIRECTIONAL SUSPENSION

HELMET TECHNOLOGY DESIGNED TO PROTECT YOUR BRAIN.

THE WORLDS ONLY FULL SUSPENSION HELMET TECHNOLOGY

**SIGNIFICANT REDUCTION IN CONCUSSION RISK
ACROSS THE WIDEST RANGE OF CRASH IMPACTS.**

**WHEN IT COMES TO YOUR HEAD, NOTHING IS WORTH
COMPROMISING YOUR SAFETY.**

**DON'T GET TRIPPED UP BY LOWER PRICES, INCOMPLETE
SAFETY SYSTEMS, GRAPHICS, OR OTHER SPONSORSHIPS.**

*Two Helmets in One / The Worlds Foremost Concussion & Traumatic Brain Injury Mitigation
Technology / The Only Rebuildable Helmet In the World / NFL Head Health Challenge Winner*

- Because I wanted the best possible brain injury protection for myself, my employees and our racers and ambassador athletes. As a brand deeply familiar with helmets and helmet technology, we've done our homework with several years of research.
- Our crew has ridden (and sometimes crashed) in virtually every high quality helmet system available.
- We analyzed the data and studied the science behind every new or leading technology.
- We had serious discussions with some of the best brands and leading manufactures.
- We observed an increased ratio of concussions from a few top AMA SX/MX racers when they switched away from 6D.
- We observed a decrease in concussions and brain injury from our own staff and sponsored racers in crash impacts with 6D helmets and now understand the reason -
- 6D's ODS Technology provides an additional, patented full suspension system, essentially two helmets in one, to measurably reduce impact energy transfer to your brain at every impact speed, in every impact angle, and in every crash event.

- They were the first, and have created something that is effective and meaningful. In fact, every other brand would not be chasing them if this was not the case! And this single reason is why we chose them as a partner for our customers and our friends.
- Yes, we know that you can still have a concussion with a 6D helmet, but that doesn't mean it didn't do its job! Thinking about the risks here, you would hate to be second guessing your purchase decision after a severe crash event that really tested your helmet.
- In our research, we've discovered that In fact, some brands are less than half as effective in mitigating (reducing) angular acceleration and linear impact energy as the 6D.
- From my perspective, having suffered "20+ dirt bike and snowmobile crash related concussions", I feel responsible to inform people, particularly super users who constantly put themselves at risk to do yourself and your loved ones a favor; don't take shortcuts with your helmet!

Clear vision is extremely important for any rider, whether seeing the perfect line, avoiding hazards, or just experiencing the beautiful trails. FXR's goggle collection gives you access to the optical clarity and Anti-Fog properties of FXR's Clearidium™ single lens technology. Pre-curved polycarbonate lenses provide protection from roost, branches, or any other hazards, while offering multiple tints for different light conditions. All FXR goggles are designed to seal properly with FXR helmets, and fit multiple face shapes and sizes.

FEATURES

- FXR's all new MX Boot has been engineered to meet the performance demands and durability standards of both MX and Off-Road riders alike.
- Built on a one-piece, non-hinged chassis, the boot is designed to provide maximum dorsal and lateral support on hard landings and impacts.
- A sleek shaped, bonded two-piece outsole, combined with cushioned flex inserts in the Tongue and Achilles, allows the rider to have positive feedback on controls and seamless interaction with the bike, with minimal break in period.
- The FXR MX Boot offers maximum protection with premium feel and control over the bike, giving riders the confidence to push their limits without worrying about their equipment holding them back.

- Bonded two-piece outsole construction is highly durable and resistant to abrasion and impact.
- Molded, convex-shaped TPU shin plate for maximum impact protection
- Adjustable aluminum buckles with a solid, click-lock closure
- Leather heat shield on the side of the boot for protection against exhaust burns
- Elastic gaiter w/Velcro closure provides a comfortable rim around the calf while sealing off the top of the boot
- One piece molded plastic inner panel prevents wear on the boot from the frame and provides excellent flex support.
- Textured toe area for traction on the shift lever
- Cushioned Tongue and Achilles flex inserts for added comfort
