## RIDE WITH CONFIDENCE

KNOWING THAT YOUR SUIT HAS **TRUE LIFESAVING TECHNOLOGY**

**FLOATATION  
ASSIST**

**RAPID  
DRAINAGE**

**SELF  
LEVELING**

**ESCAPE  
ASSIST**

**MOBILITY  
UNRESTRICTED**

**WET/DRY INSULATION  
INSULATED WHEN WET**

The cold shock response is the first thing to occur after entering freezing water. An initial involuntary deep gasp is followed by massive hyperventilation that can be up to 1000% greater than normal breathing. If the rider's airway is below the waterline at this time, the rider risks drowning.

F.A.S.T.™ technology brings the rider to the surface quickly, keeping the head above water while the rider gets through the initial Cold Shock Response and can attempt to exit the water.

Cold incapacitation begins to set in during the first 10 minutes of immersion. Loss of use of fingers/arms/legs leads to swim failure, and eventually drowning, if the rider is not able to get out of the water quickly and is not wearing a floatation suit.

F.A.S.T™ Insulation retains buoyancy properties for up to 2hrs, and is strategically positioned within the suit to allow unrestricted movement, both on the sled, and getting out of the water. FXR boots are a key component to mobility, and exiting the water, due to the use of highly buoyant materials.

Each gallon of water that is trapped inside the suit is equal to an additional 10lbs of weight, which can make survival and exiting the water extremely difficult, especially on thin ice. Rapid Drain inserts in the jacket/pants allow water to drain as the rider exits the water,

reducing the weight and effort required to exit as well as reducing the risk that the ice will break through again.

Once out, F.A.S.T™ retains its thermal properties even when wet to keep body temperature from dropping.

A person wearing a dark brown FXR winter jacket is holding a large fish in a snowy landscape. The jacket features reflective yellow-green stripes and patches, including one with the FXR logo and another with the word 'ICEFISH'. The fish is held horizontally, and a fishing line is visible extending from its mouth. The background shows a snowy field and evergreen trees under a clear blue sky.
