INSULATION

UNRESTRICTED
MOBILITY & FUNCTION

F.A.S.T.™ INSULATION IS MADE FROM A MULTI-LAYER CLOSED CELL FOAM MEMBRANE
THAT OFFERS BUOYANCY ASSISTANCE FOR UP TO 2 HOURS.

AVAILABLE IN SELECT FXR MEN'S, WOMEN'S OUTERWEAR & ALL FXR CHILD & YOUTH OUTERWEAR

IMPORTANT - FXR JACKET AND PANTS WITH F.A.S.T.™ SHOULD BE WORN TOGETHER AS A SUIT TO ACHIEVE OPTIMAL BUOYANCY PROPERTIES.

Additionally, F.A.S.T.™ items will be rendered ineffective in adverse conditions such as strong water currents.

F.A.S.T.™ equipped products provide exceptional mobility, warmth, style, and attention to detail while offering buoyancy properties, but are NOT COAST GUARD APPROVED.

INNER MICRO-CLIMATE The air space between the A.C.M.T. Pro™ lining and the outer shell creates an inner micro-climate, allowing the outer shell and inner lining to function at different temperatures.

BREATHABILITY The warmer temperature of the inner A.C.M.T. Pro™ lining allows the inner HydrX Pro™ membrane to maintain optimal breathability, below freezing where other materials fail.

ANTI-CONDENSATION The temperature of the inner A.C.M.T. Pro™ lining remains warm enough to stay above the dewpoint, reducing inner condensation the exact same way that a dual goggle lens reduces fogging and frost build-up on the inner lens.

HYDRXPRO™

WATERPROOFING

OUTER LAYER Durable outer shell with HydrX Pro™ membrane repels 99% of external moisture from entering the jacket.

INNER LAYER Seam-sealed inner lining with HydrX Pro™ membrane acts as a 2nd waterproof / breathable barrier, stopping external moisture, and creating a semi-sealed air space between the layers of the garment.

OMNI-STRETCH™

Omni Stretch™ shell material provides maximum stretch and mobility, while allowing the shell material to take impacts from trees and rocks, with minimal chance of snagging or tearing. Omni Stretch™ is extremely durable and provides the greatest amount of stretch in a rugged shell material in the industry. Available in select premium FXR Jackets, Pants and Monosuits.

DryVent™ system

The Dry Vent™ System is a high performance venting system that maximizes ventilation in radial side body vents and the chest of FXR jackets and the inner and outer thigh of FXR pants. Seam sealed venting mesh eliminates snow ingestion in all snow conditions, including bottomless powder or wet snow. It uses the cold

air entering the vents to exhaust the warm air built within the inner microclimate between your jacket / pant and base layers. FXR's trademarked Dry Vent™ System is 99% more effective at controlling your core temperature and keeping you dry than any waterproof / breathable system on the planet.

ThermalFlex™

FXR's Thermal Flex™ insulation is a powerful blend of polyester fiber fill that provides exceptional warmth and flexibility at any temperature. Unlike other fiber fills, which often become stiff in cold weather, our Thermal Flex™ insulation provides superior comfort, mobility and warmth season after season, wet or dry. Our trade-marked insulation is used in both fixed and removable liner systems, in both jackets and pants meaning all of our products come with unbeatable heat retention abilities.

ThermalDry™ ACTIVE LINER

Key to the overall comfort, warmth, and breathability of the garment. Remains flexible at any temperature. Allows for maximum breathability through moisture-wicking mesh layers & Thermal Flex Insulation.

2 8

COLD WEATHER / LOW ACTIVITY RIDING GEAR

MILD WEATHER / AGGRESSIVE RIDING GEAR
A value of 1 has no thermal insulation and is suitable for mild climates or situations where intensive perspiration occurs.

7 10

COLD WEATHER / LOW ACTIVITY RIDING GEAR

Values between 7-10 have extremely high thermal properties and are able to withstand extreme temperatures, well below -40°C / F and will keep you warm during sedentary outdoor activities.

3

COMBINED INSULATION

If the item is a 2-in-1 (indicating it has a removable liner), both the "SHELL" and "COMBO" (combined) value of the shell and liner will be displayed.

COLD WEATHER / LOW ACTIVITY RIDING GEAR

Values between 7-10 have extremely high thermal properties and are able to withstand extreme temperatures, well below -40°C / F and will keep you warm during sedentary outdoor activities.

COMBINED INSULATION

If the item is a 2-in-1 (indicating it has a removable liner), both the "SHELL" and "COMBO" (combined) value of the shell and liner will be displayed.

3

BOOT STIFFNESS SCALE

FXR rates its boots for warmth and stiffness to allow riders to select the boot that most suits their riding style and preferences. A stiffness rating of 10 indicated maximum rigidity and support for aggressive riding, while a stiffness rating of 4-5 indicated more flexibility for comfort and ease of walking / casual use.

6D ATR-2 RACE DIV HELMET

DOT **ECE** FROM 1480G

- Bold FXR graphics
- Removable, washable comfort liner features Genuine Dri-Lex® anti-bacterial fabric
- Emergency quick-release cheekpads
- PU-over molded EPP lined chin bar includes sternum pad
- Goggle band integrated shell recess at the eyeport area, improves goggle fit and seal
- Shear-away visor screws designed to reduce, angular acceleration potential
- Nose guard provides improved roost protection
- Titanium D-rings
- Lightweight with improved center of gravity (+/- 1480 grams Size M)

REBUILDABLE ODS SYSTEM

- Patented Omni-Directional Suspension® (ODS®)
- Improved ODS design mitigates angular and linear accelerations
- Replaceable inner EPS liner
- Multi-impact EPP outer liner incorporates Isolation damping towers
- Rotational energy management disks reduce angular acceleration
- Superior low, mid, and high velocity impact mitigation

AIR-GAP VENTILATION SYSTEM

- Air-gap ventilation system with 17 transfer ports
- Optimized compliant light weight tri-composite shell provides superior energy absorption
- 3 shell sizes optimize the size to weight ratio
- Rear lower shell incorporates compliant zone at the cervical spine location
- Brow Rib increases shell integrity above the eyeport
- Clavicle cut-away provides increased clearance
- 9 intake ports and 6 exhaust ports work in unison with the air gap ventilation system
